

Program A
starts running

Program A

Program B

01 SharedRec etc

Mike12345

Program C

Program D

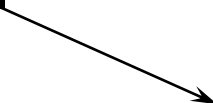

01 SharedRec etc

SharedRec

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4) .  
   02 PartB    PIC 9(5) .
```

Program A calls
Program B which
starts to run.

Program A

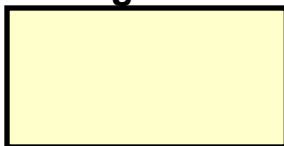

Program B

01 SharedRec etc

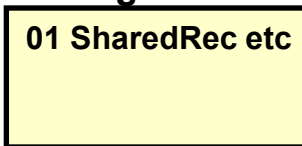

Mike12345

Program C

Program D

01 SharedRec etc

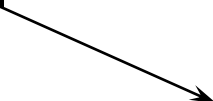

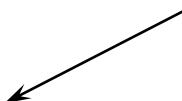

SharedRec

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4) .  
   02 PartB    PIC 9(5) .
```

Program B moves
the value
Mike12345 to the
shared record

Program A

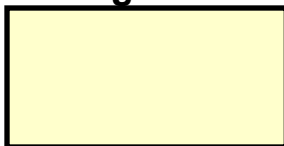

Program B

01 SharedRec etc

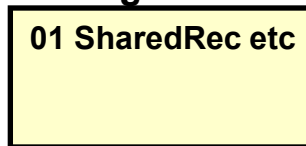

Mike12345

Program C

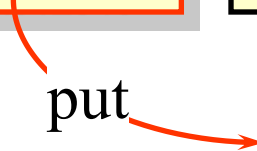

Program D

01 SharedRec etc

put

SharedRec

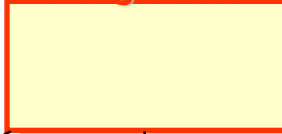

Mike12345

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4) .  
   02 PartB    PIC 9(5) .
```

Control returns to
Program A

Program A

Program B

01 SharedRec etc

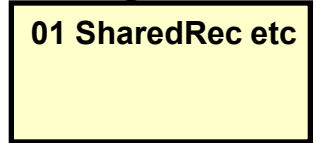

Mike12345

Program C

Program D

01 SharedRec etc

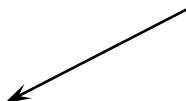

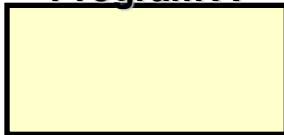

SharedRec

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4) .  
   02 PartB    PIC 9(5) .
```

Program A calls
Program D which
starts to run

Program A

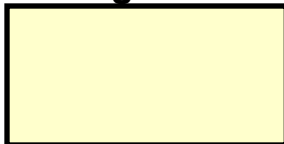

Program B

01 SharedRec etc

Mike12345

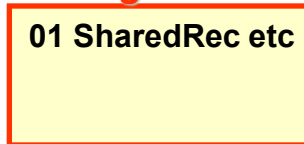

Program C

Program D

01 SharedRec etc

SharedRec

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4) .  
   02 PartB    PIC 9(5) .
```

Program D moves
the value in the
shared record to
one of its local
variables.

Program A

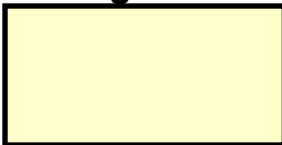

Program B

01 SharedRec etc

Mike12345

Program C

Program D

01 SharedRec etc

Mike12345

SharedRec

Mike12345

get

```
WORKING-STORAGE SECTION.  
01 SharedRec IS EXTERNAL.  
   02 PartA    PIC X(4).  
   02 PartB    PIC 9(5).
```
