01 StudentDetails

PIC X(25) .

So we need to refine our record to allow us to access the individual parts of the record.

We need to describe StudentDetails as a group item which consists of the subordinate items - StudentId, StudentName and DateOfBirth.

StudentDetails

9	9	2	4	5	1	3	N	S	W	A	L	S	H				1	0	0	9	1	9	5	2

01 StudentDetails.

02 StudentId PIC 9(7).

02 StudentName PIC X(10).

02 DateOfBirth PIC 9(8).

So we need to refine our record description still further.
StudentName and DateOfBirth must be declared as group items.
